Hello Children,

Joke of the week:

Q: Why couldn't the pony sing himself a lullaby?

A: He was a little hoarse.

If you've got a good joke please email it to me!

head@seagravevps.org

Hello! Well done—you have completed your first week of work set especially for you by your teacher. Lots of your parents have said you enjoyed seeing your teachers in the videos—there will be another one this week! There are some fantastic photos and work being sent to the teacher's emails—we love to see how creative you've been and I think there might be a few budding chefs out there. We have spoken to a few children and parents this week and it sounds like you are working hard and trying your best. I know it must be difficult to do your learning activities whilst at home when there's other stuff to do but please try to do a little bit each day—we are all here to help if you need us (or if your parents do!)

Do you enjoy David Walliams books?
Check this out!

Storytime!

We hope you have seen some of the stories we have recorded for you. They are all on our Vimeo account.

Elevenes with The World of David Walliams - The World of David Walliams
Every day at 11am, you can listen to one of David Walliams' World's Worst Children stories, so sit down, take a break, and enjoy 20ish minutes of pure fun!

Happy Birthday Oscar

CONGRATULATIONS
to Scarlett (and her family)
She is now a big sister to
the very gorgeous Thomas

Goodbye for now,
from Mrs Litchfield

Did you ever play with dinosaurs as a child? Did you dream of finding dinosaur bones in your garden? Well a boy aged 9 from Seagrave has done just that! Whilst walking through farm lands on his daily walk he came across a large looking stone, only to find out it was a dinosaur we had never seen before.

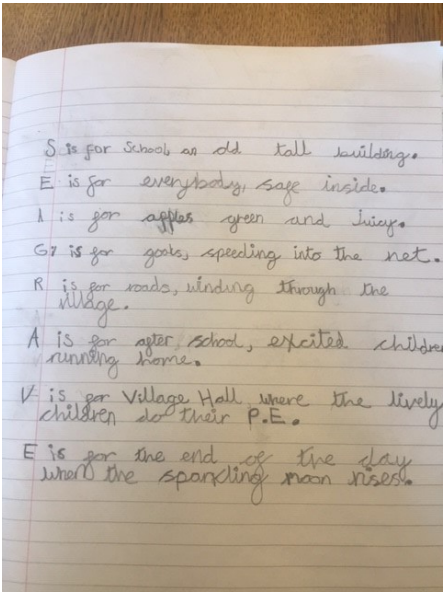

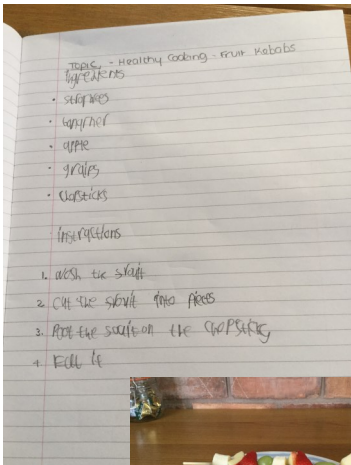

PICTURE CAPTION: The farm where the bones were found.

We were able to speak to Morgan Hull, who discovered the dinosaur.

This is what he had to say: ...

Well it all started when I was walking through farmlands near to where I live, and I saw a white rock, it was huge. So I went over and pulled on it, it was then I realized it was a dinosaur bone. I started to dig around the bone with a stick I had found, when it was about half uncovered, the farm owner appeared and asked me what I was doing? I explained there was a dinosaur bone and he offered to help. He went back to the farm to get shovels for us both. He later arrived with 2 shovels and a pickaxe.

We managed to dig up the bone but noticed there was more underneath. It was at this point we decided we needed help. We called the Natural History Museum, to see what we should do. They are in the process of Excavating the bones, and have asked me if they could move them to the Rarest Finds Museum. They have also asked me if I would like to name the Dinosaur, So I called it a Caprosuchus. The Caprosuchus is currently on display at the rarest Finds Museum in Birmingham so if you want to see it go today. The owner of the farm has allowed the Natural history museum to turn their land into a dig site. Who knows what they would find next?!

Maathon Monday

by Hattie Jarvis

Hi this is my newspaper report on Monday 20th of April 2020. My football coach wanted the whole team to do a Maathon. So we had to run 2 miles each so he could add that up to a maathon.

00:21:20

5.7 2.0

We started from Charles Street and ran down the Cossington Road. I was getting tired but never stopped then we went past Cossington School past some trees and my legs were aching then I was coming second then we went to black lane I started to get tired but I kept going then we were nearly there we went through a park (its a golf) it was hot and windy with the green grass then we went past on Cossington Road and saw some spibbs and some sparrows then we went up Chalgrove Drive past some houses and arrived home I jumped on the sofa and some ice cream and a cold drink.

It was early on a Saturday morning and it was damp and dull in the train station. I could hear a pin drop. It was that quiet. Me and Huey were sitting on a big green bench. Chatting about how mum and dad were already there and we were waiting to have a 2 week holiday in Sandhorne. We were already not sure about it and were planning to go. At least the big one, long train came out of nowhere. The air filled with thick black smoke and something to breathe we looked more than to escape the smoke.

There was a man on the train. An American old guy with grey hair. He was wearing a hoodie and a white shirt. He was a bit of a collector. Inside I felt very suspicious. He also gave me the shirt. I suddenly asked Huey why is there anyone on the train. He exclaimed I don't know. It should be quiet. But he looks like a collector. He kept going up to the back of his phone. He was doing that. What was he doing? He was checking it and putting it back.

There was a loud bang. Huey whispered I think that was a gun shot. We hunched down under the table. Huey was saying to breathe. What should we do? I think we should get out of here fast. We moved. Huey was saying to press a big red button.

We made our way to the kitchen. I found a chest but I couldn't see it. My knees bumped through the door because the glass counter smashed. I found the emergency lever. We need to stop this train. I said. Huey was saying the train was completely out of control.

Lesson 2

21st April 2020

- ① $2958 + 2184$
- ② $3241 - 648$
- ③ 29×4
- ④ $98 \div 8$
- ⑤ Continue 2/10, 4/10, 6/10 ...
